Whole School Project

In September, all pupils will be exploring a book based on the seaside.

Your task is to visit the seaside, in the UK or abroad, and collect an item you found on the beach.

Can you get a bag full of wonders?

Examples: seaweed, shell, pebble, feather, net, driftwood, an interesting piece of treasure! Can you surprise your teachers and classmates?

Don't worry if you are not visiting the beach over the summer, it could be an item you find in your local park.

Please bring your items with you on your first day back at school.

At school, your items will be shared with your peers and discussions will take place. Afterwards, they will help create an interactive beach display.

Please make sure this task is completed with an adult, items are of a safe nature and that you do not enter the sea without an adult.

Good luck!
